

Field Services and Training

Founded in 1990 and with over 200 years of combined experience, Control Analytics Inc. is a leading provider of maintenance and engineering service for CEMS and on-line analyzer systems.

MAINTENANCE CONTRACTS

Weekly - Monthly - Quarterly - Annual Contract services designed around a client's specific needs and to fit within the client's budget.

EMERGENCY FIELD SERVICE

CAI maintains a 24/7 emergency service hotline and can mobilize for emergency service requests on short notice.

PARTS

CAI maintains an extensive parts stock in our Pittsburgh facility.

TRAINING

CAI can provide training on sample systems and analyzers tailored to fit your system requirements.

Safety First!

CAI is compliant to all Federal, State and Local requirements and participates in 3rd party contractor/verification programs including DISA, ISNetworld, PEC Premier and PICS

**Contact Service - 724-387-2367 or
Service@controlanalytics.com**

Control Analytics is world class provider of analyzers and components, analyzer system engineering and integration, and field and bench service.

Sales:

Our experienced sales team provides sales of gas and liquid composition analyzers, sampling system components for Continuous Emission Monitoring (CEMS), and on-line process analytical applications.

Integrated Systems

Turnkey, custom designed CEMS and process gas and liquid online analyzers systems.

Service:

Comprehensive field services for analyzers and systems. Services include site walk-downs and evaluations, system startup, preventative maintenance and emergency troubleshooting and repair.

Training:

Comprehensive site and classroom training on the implementation and maintenance of analyzers and sampling systems .

Parts:

We stock many parts and components for analyzers and sample system components.

Analzers and Analyzer Systems

Gas Analyzers and Systems for CEMS and Process Control Applications
Paramagnetic O2, TDLS

Mass Spectrometers and Residual Gas Analyzers for Process Control

Gas Detection - Portable Single and Multi-Gas Monitor, Fixed System Controllers and Detector Heads

Gas Sampling, Sample Probes, Probe Tubes, Controllers, Coolers and Sample Pumps, TDLS for O2, CH4, HCl, C1-C5, NH3

BTU, Moisture and Dew Point Analyzers

Air Sample Pumps, Detector Tubes, Micro Air Pumps, Fixed and Open Path Gas Detection

CEMS and Ambient Gas Monitors: SO2, NOx, CO, CO2, O2, NH3, H2S, TRS, O3

Process Gas & Liquid Analyzers for H2S/Total Sulfur for Natural Gas and Hydrocarbon Processing

Noise Dosimeters, Portable Dust and Heat Stress Monitors, Meteorological Sensors

CEMS and Process Monitors - Opacity, Flow, Dust, Process Flow, Baghouse

Process Gas Chromatographs and hazardous area classified Gas Analyzers

Gas Detection - Fixed and Portable Gas Detection, Single or Multi- Gas Monitors, Leak Detection

Portable Combustion Efficiency, Air Emissions and Multi-Gas Analyzers, Thermal Imagers and HVAC

Gas and Liquid Analyzers for Sulfur, Nitrogen and Distillation profile

Moisture Monitors, Oxygen Sensors, Process and Flow Calorimeters

Stationary and Portable FTIR, Gas Analyzers

Viscosity Measurement

Hitech Purity Gas Monitors for H, Moisture, Chlorine and N2

CEMS analyzers for NOx, SO2, CO, CO2, THC and VOC Flame Ionization, FTIR, Photo-Acoustic Analyzers

Tubing Bundles, Instrument Enclosures, Heaters and Instrument Stands

Measurement and Control Products; Pressure, Flow and Temperature Transmitters
